

Route 66 2010 Rally

Route662010.com

To Whom It May Concern:

The Route 66 2010 committee would like to make your society aware of our plans and see if any of your members would like to join in or be a part of the festivities once we roll into a town near you.

Also we are seeking any help getting media exposure (newspapers, websites or television) that may cover our rally across historic and resurging Route 66 this May. We have over 50 teams driving high visibility rally cars across eight states in America from different directions converging on Amarillo Texas. Each team will be given historical check points along Old route 66 that they need to place themselves and or their vehicle in front of and snap a photo prior to moving on to the next check point.

First we would like it to be known that we are looking for absolutely no funds for this event (all our participants are asked to simply cover their own expenses) but only seek to draw a higher visibility for our event to assist us in obtaining our own sponsors for this year and for the years come.

We are seeking sponsors in order to film the event professionally from both starting lines and those folks won't work for free.

Should your group have a contact within the media industry that could be of assistance we would certainly appreciate the recommendation. We would love to make this an annual event.

Below you find a schedule of the Rally.
